Heart Response™

Supports the Cardiovascular System

enlarge bottle

Heart Response combines hawthorn, L-carnitine, and CoQ10 with other herbs, nutrients, and antioxidants to support cardiovascular function. Research suggests that hawthorn has the ability to increase the strength of contraction of the heart, and to increase coronary blood flow. Carnitine and CoQ10 both play roles in energy generation, which is necessary for the continuous work performed by the heart muscle.

Supplement Facts

Serving Size: 3 tablets

	Amount	%DV
Vitamin B-6 (as pyridoxine HCl)	25 mg	12.5
Folate (as folic acid)	400 mcg	1
