ENTROX® is a unique dietary supplement derived from the seeds of the perilla plant, an herb native to Asia. It is a rich source of Omega-3 fatty acids (Alpha Linolenic Acid).

ENTROX® is an enteric coated formula from non-GE (non-genetically engineered) Perilla Seed Oil, a rich source of EFA's (Essential Fatty Acids). The patented European enteric coating is designed to prevent acid reflux experienced by some people when taking other EFA supplements.

Consumption of Omega-3 fatty acids may reduce the risk of coronary heart disease. FDA evaluated the data and determined that, although there is scientific evidence supporting the claim, the evidence is not conclusive.
