[Direction for Use]

As a dietary supplement, take one tablet three times a day between meals or as directed by your practitioner.

For the best benefit we recommend to increase the dose gradually, up to 9 tablets a day.

If you are currently on medication don't quit your drugs hastily. Grifron® SX-Fraction® should not be regarded as a substitute for any drugs. Consult your physician, and go step by step.

[Product Description]

Grifron® SX-Fraction® is our proprietary product to help you maintain healthy blood sugar levels and insulin sensitivity.*

Maitake Products, Inc., in corraboration with Georgetown University and Shizuoka University, has successfully isolated and identified an active component of glycoprotein (protein conjugated with carbohydrates) from Maitake mushroom that helps maintain healthy blood sugar levels and insulin sensitivity,* to which a US patent has been granted **(US Patent No. 7,214,778)**.

Grifron® SX-Fraction® is standardized to contain a guaranteed level of the bioactive glycoprotein.

Add Grifron® SX-Fraction® as an essential part of your daily diet in conjunction with proper excercise program to help maintain healthy glucose metabolism and insulin function.*

SX-Fraction® supports healthy insulin function.*
SX-Fraction® promotes healthy glucose metabolism.*
SX-Fraction® supports healthy lipid metabolism.*
