The combination of glucosamine and chondroitin sulfate has become synonymous with sound joint and cartilage health. We've taken the process one step further. By incorporating MSM (an organic sulfur compound that may provide more of the raw materials needed for joint flexibility), NOW Glucosamine and Chondroitin with MSM may be highly effective in promoting free and easy movement – a requisite to joint health. Perfectly proportioned for easy absorption, this supplement is ideal for anyone hoping to maintain healthy mobility.*
