Tonalin® CLA

Tonalin® CLA is made through a proprietary process that converts the linoleic acid of safflowers into conjugated linoleic acid. Safflowers are the richest source of linoleic acid. CLA in supplement form is necessary since it is exceedingly difficult to obtain an optimal level of CLA through diet alone.*

Laboratory research has indicated that Tonalin® CLA helps reduce body fat while increasing lean muscle tone. Tonalin® CLA can help you achieve your diet goals in two ways: first, CLA increases lean muscle which naturally slims your body. Secondly, the added muscle tissue automatically burns more calories than fat tissue, which in turn increases your metabolism.*

CLA also helps the body metabolize existing fat deposits. This fat then returns to the blood stream where it is used as energy by muscle cells and the liver.*

Unlike many supplements for weight loss, Tonalin® CLA does not contain any stimulants. In contrast, Tonalin® CLA is not only safe, it's other and equally important health benefits make it a sound supplement choice for overall better health.*

Tonalin® CLA 2405.9

2405.9 (90 capsules)
