Learning Factors is a blend of essential fatty acid rich oils, shown to optimize brain and eye function thereby contributing to normal learning, attention and concentration.* Natural Factors has combined three essential polyunsaturated fatty acids, Docosahexaenoic acid (DHA), Arachidonic Acid (AA) and Gamma Linolenic Acid (GLA). Our DHA and AA come from the highest quality Dolphin-Safe Tuna oil. Vitamin E and Thyme oil, two well known antioxidants, preserve the fatty acids and optimize the amounts available to the body. This unique blend is solvent and pesticide free and is tested for heavy metals and peroxide. Learning Factors is ideal for children as well as adults who want to enhance their mental focus naturally and safely.

Also available:
180 Softgel Capsules - 2372
90 Softgel Capsules - 2371

Suggested Usage:
Take 1 capsule, 2-4 times per day or as directed by a health professional. Children under 5: Take one capsule in the morning and the evening with food or drink.

Contains no artificial preservatives, color, corn, dairy, gluten, starch, or yeast.
