K-Mag KG™

Potassium Magnesium alpha-Ketoglutarate * 1,000 mg

enlarge bottle

K-Mag KG is a combination of the essential minerals potassium and magnesium with alpha-ketoglutaric acid (AKG). Potassium, magnesium, and AKG all have important roles in the Krebs energy production cycle, which produces ATP, the body's "energy currency." Without ATP, muscle contraction and athletic activity would be impossible. Potassium and magnesium are also necessary electrolytes, which play a crucial role in the contractility of heart and skeletal muscle.

Supplement Facts
Serving Size: 2 tablets

	Amount	%DV
Magnesium (as magnesium alpha ketoglutarate)	200 mg	0.5
Potassium (as potassium alpha ketoglutarate)	198 mg	0.06
alpha-Ketoglutaric Acid (as magnesium & potassium alpha ketoglutarate)	1,190 mg	†

Other Ingredients: Stearic acid, modified cellulose gum, colloidal silicon dioxide & magnesium stearate.
