Let's face it, dieting today can be stressful! As a result of this stress, our body releases Cortisol and DHEA - stress hormones that can significantly increase our appetite and encourage our body to store fat, thereby impeding us from attaining our target goals. NOW Relora® is a safe and 100% natural formula specifically designed to offer stress-related appetite control while inducing a non-sedative state of relaxation. By attaching itself to specific receptor sites in the nervous system, Relora® aids in the normalization of these stress-related hormone levels. Vegetarian friendly, NOW Relora® can complement even the most demanding diet.*
