Trust The Leaf™

Primadophilus Reuteri™, Capsules

Description

Our Top-Selling probiotic brand Primadophilus blended with clinically proven Lactobacillus reuteri. Reuteri is one of the first strains of friendly bacteria to pass from mother to child where it rapidly colonizes and becomes an important part of the gastrointestinal flora.

Usage

-Reuteri stimulates gastrointestinal epithelial cell development and improves intestinal cell structure leading to more efficient nutrient uptake, enhanced physical growth and overall better health. - Reuteri is the only lactobacillus species to produce and secrete reuterin, which has been shown to exhibit broad spectrum antimicrobial activity. - Reuteri uniquely contains the specific protein "AGGH" that encourages lactobacteria to cluster and colonize in the intestinal tract. In clinical use, Reuteri effectively colonized in over 90% of patients. Reuteri supplementation is clinically shown to promote healthy digestion and intestinal integrity in humans. It is also being researched for cholesterol control, nutrient absorption, immune system support, seasonal respiratory health, and vaginal health.*

Recommended Daily Dosage

Take one capsule daily, to receive 100 million Colony forming Units per capsule, of Lactobacillus reuteri. Human studies show this dosage to be clinically effective. For more intensive purposes take up to three capsules per day.

The following list is for serving size of 1 capsule

Primary Ingredients	***Amount***	***USRDA***
Lactobacillus acidophilus		0%
Lactobacillus reuteri		0%
Lactobacillus rhamnosus		0%
Vitamin C (ascorbic acid)	1 mg	3%

Other Ingredients

Gelatin, Gelatin Enteric Coating, Magnesium Stearate, Maltodextrin

Sizes & Suggested Retail Price

30 - $5.99
90 - $15.99

Where to BUY?

Synergistic Products

Cranberry
Echinacea

Garlicin
Neem
Olive Leaf, Extract
Pau d'Arco

Quality Issues
100% Intestinal Difference. Each Primadophilus Reuteri capsule has a proprietary enteric coating that completely withstands stomach acid so it can release its full potency into the intestinal tract. Without this coating, up to 95% of the active cultures could be lost in the stomach. Probiotics must be kept refrigerated to maintain potency.

Usage Warnings
To retain maximum potency keep refrigerated.
