Mushroom Immune Defense™

16-Mushroom Complex

enlarge bottle

Mushroom Immune Defense is a blend of mushroom mycelia and extracts from 16 of the most well-studied species of health-supportive mushrooms. Although the exact mechanisms of action in the body are not yet fully understood, researchers propose that constituents of these mushrooms may support natural killer (NK) cell, T-cell, and macrophage activity, and cytokine production. By carefully combining these mushrooms and fortifying them with extracts, Source Naturals Mushroom Immune Defense offers a broad-spectrum, high potency, complete mushroom product.

Supplement Facts

Serving Size: 2 tablets

	Amount	%DV
Vitamin C (as ascorbic acid)	100 mg	170
