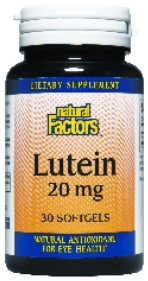
Lutein - 20mg, 30 capsules

Code 1031 (20mg / 30 Softgel Capsules) buy now



Natural Factors Lutein capsules combine 20mg of Lutein (a natural carotenoid) with bilberry and Multi-Anthocyanidins for increased effectiveness. Lutein is an antioxidant which protects the eyes retina, and supports the circulatory system and the body's natural defenses. Lutein is extracted using a patented process. Bilberry improves eye function, especially night-time visual acuity. Multi-Anthocyanidins, derived from flavonoid-rich fruits, are powerful free-radical scavengers. This synergistic blend of phyto-nutrients works to enhance your vision.

Suggested Usage:
1-2 capsules per day preferably with meals or as directed by a health professional.

Keep out of reach of children.

Contains no artificial preservatives or color; no dairy, soy, wheat or yeast.
