Product Information

Crystal Calcium Easy Dissolve Calcium

Description:	* Crystal Calcium™ is composed of highly bioavailable forms of calcium along with Vitamin D for enhanced absorption. Calcium is intended to support healthy bones and teeth. * Innovative, tasteless, easy-dissolve formula is able to dissolve in any beverage. * 100% of the RDI of Calcium in one convenient serving. KAL was established in Southern California in 1932 as one of the first nutritional supplement brands in the United States. KAL started as a powdered product brand, but soon branched out into tableted products. KAL has been a pioneer in the introduction of new and innovative products, as well as new and unique dosage forms. We are proud to introduce Crystal Calcium in continuance of the KAL tradition. * Settling of contents may occur during shipping.
