PGX™ - A Revolutionary Fiber Complex

PGX Fiber Blend binds to the water in the digestive tract to form a gelatinous, viscous mass which slows glucose absorption and creates a sense of satiety (fullness) while reducing the absorption of calories.
This impressive PGX Blend, short for PolyGlycopleX, exerts 3 to 5 times the effects of other fibers. A key component of PGX is glucomannan, a soluble fiber from the root of konjac. It is 3 times more viscous than guar and 7 times more viscous than psyllium. With this, and the other components it contains, PGX has a viscosity 3 to 5 times greater than glucomannan alone.

PGX:
- **lowers postprandial blood glucose by 20%**
- **lowers insulin secretion by 40%**
- **improves whole body insulin sensitivity by nearly 50%**
- **is unequalled by any drug or natural product.**

PGX capsules also contain an extract of mulberry leaves, shown to block certain enzymes that break down starches and sugars in the body, thereby diminishing after-meal rises in glucose and insulin.

Suggested Usage:
2-4 capsules, taken with 8-16 oz of water, 5 to 10 minutes before meals or as directed by a health practitioner. Keep out of reach of children.

Supplement Facts

Serving Size 2 Capsules

	Amount per Serving	% Daily Value
Total Carbohydrate	1.4 g	<1%**
Dietary Fiber	1.3 g	5%**
Sodium	23 mg	<1%**
Calcium	6 mg	<1%**
PGX™ Proprietary Blend	1000 mg	†
Konjac (Amorphophallus konjac K. Koch) root extract		†
Sodium Alginate		†
Xanthan Gum		†
Mulberry (Morus Alba), powdered extract (leaf)	50 mg	†

Other ingredients: Gelatin capsule (gelatin, purified water), rice powder, magnesium stearate (vegetable grade).

** Percent Daily Values are based on a 2,000 calorie diet.
