TMG ***Trimethylglycine(Hypoallergenic)***
 # 73230 100 capsules

Buy

Trimethylglycine (TMG) is the supreme methylating agent and assists homocysteine to be metabolized into methionine, resulting in the production of DMG (dimethylglycine). Further metabolism of TMG produces the enzyme methyltetrahydrofolate reductase (the active form of folic acid). Studies have shown cerebrospinal fluid levels of S-adenosylmethionine (SAMe) to be low in people deficient in methyltetrahydrofolate reductase enzyme. TMG has been shown to support normal levels of SAMe in the cerebrospinal fluid.*

Suggested Use: As a dietary supplement, 1 capsule one to three times daily before meals, or as directed by a healthcare practitioner.

Serving Size	1 capsule
Servings per container	100
Amount per serving:	
Trimethylglycine	750 mg

Other ingredients: Gelatin, magnesium stearate, silicon dioxide.

This nutrient is of the highest quality and purity obtainable, free of all common allergens (antigens), and does not contain preservatives, diluents, or artificial additives.

Keep in a cool, dry place, tightly capped.
