Take 4 tablets daily or 2 tablets twice a day.

[Product Description]

Chaga(*Inonotus obliquus*) is a mushroom long used in Russia and Poland as a traditional folk remedy. Chaga has demonstrated a variety of beneficial cardiovascular actions and a range of immune supporting benefits, including activation of B cells and macrophage.* In a comparison study, Chaga exhibited the strongest free radical fighting response of all leading mushrooms tested.* We use only the best material, sourcing only wildcrafted Chaga mushroom grown on a Birch tree from Siberia, where it grows naturally.
