Prebiotin Bone Health

Add to Cart

Worried about Bone Density? Concerned about Osteoporosis Risk? The special full-spectrum prebiotic in Prebiotin enhances calcium absorption, plus Prebiotin – Bone Health adds the Calcium and Vitamin D3 that your body needs.

Prebiotin-Bone Health defends against osteoporosis, and supports digestive health, immunity, bone density and calcium absorption by nourishing beneficial gut bacteria. It gives your diet an added boost of calcium and Vitamin D3 too while being gluten free!

Prebiotin-Bone Health offers a full-spectrum prebiotic (Oligofructose-Enriched-Inulin, or OEI). Unlike ordinary prebiotic fiber such as Inulin or FOS alone, OEI ensures that Prebiotin nourishes beneficial bacteria throughout the colon.

Prebiotin Bone-Health comes in 60 serving jar with a convenient measured serving scoop. Add one to two scoops and stir vigorously to your favorite beverage, or sprinkle over food to receive the full benefit of the recommended daily dosage. See How to Take for specific usage instructions

Prebiotin – Bone Health contains:

- Prebiotic Fiber – Increases Calcium Absorption
- Calcium – Supports Bone Health
- Vitamin D3 – Supports Bone Health

At less than 50 cents per serving, it's far more affordable (and healthy) than a cup of morning coffee.

Benefits of Prebiotin-Bone Health

Research shows Prebiotin:

- Increases Calcium Absorption
- Increases Bone Density
- Increases good colon bacteria
- Enhances the Immune System
- Reduces Triglycerides
- Controls Appetite and Weight
- Reduces Colon Polyp and Cancer Factors
- Improves Bowel Regularity
- Reduces Allergies and Asthma
- Decrease Flatus Smell

Manufactured in the U.S.A. in an FDA-inspected, GMP-certified facility.
